

Assignments

This directory contains a series of assignments designed to reinforce and apply the concepts covered in the lecture notes. Each assignment includes various formats such as Markdown ([.md](#)), Jupyter Notebooks ([.ipynb](#)), PDF, and HTML, allowing you to work with and view the content in your preferred environment.

Contents

Py01-Assignments

- [Py01-Assignments.md](#)
Markdown file containing the first set of assignments, covering fundamental Python concepts.
- [Py01-Assignments.ipynb](#)
Jupyter Notebook with the same assignments, allowing you to run and test code interactively.
- [Py01-Assignments.pdf](#)
PDF version of the assignments, suitable for printing or offline viewing.
- [Py01-Assignments.html](#)
HTML version of the assignments, ideal for viewing in a web browser.

Py02-Assignments

- [Py02-Assignments.md](#)
Markdown file for the second set of assignments, focusing on more advanced topics like arrays or data handling.
- [Py02-Assignments.ipynb](#)
Jupyter Notebook version for interactive learning and practice.
- [Py02-Assignments.pdf](#)
PDF version of the second set of assignments.
- [Py02-Assignments.html](#)
HTML version, accessible via any web browser.

Py03-Assignments

- [Py03-Assignments.md](#)
The third set of assignments in Markdown format, likely involving libraries like Pandas or plotting tools.
- [Py03-Assignments.ipynb](#)
Jupyter Notebook version, enabling hands-on coding and experimentation.

- [Py03-Assignments.pdf](#)
PDF version of the third set of assignments.
- [Py03-Assignments.html](#)
HTML version for browser-based viewing.

Py04-Assignments

- [Py04-Assignments.md](#)
Markdown file containing the fourth set of assignments, possibly involving data science or file handling topics.
- [Py04-Assignments.ipynb](#)
Jupyter Notebook version for interactive practice.
- [Py04-Assignments.pdf](#)
PDF version of the fourth set of assignments.
- [Py04-Assignments.html](#)
HTML version for web-based access.

Data Folder

- [Data/](#)
This folder contains any datasets or images needed to complete the assignments. Ensure that you reference this folder when working on the Jupyter Notebooks or other assignment formats.
